

## PROJECT 1: TABLEAU VIVANT PRESENTATION

1. Measure out on Illustration board the size of your image, and of your source image.
2. After you have completed your painting, attach source image.
3. Cut out two windows from a black mat, measured to your images. Attach securely to the illustration board.

4. Flap matted image with tracing paper.
5. Flap a second time with a heavier stock of paper.
6. Use a single, continuous length of tape to secure one edge of the flapped paper to the back of the illustration board. Trim the flap edges as shown to ensure the flap open easily. Securely attach the archive label to the back of the board.
